

KeyPad Outdoor Jeweller

Wireless keypad supporting authentication via Pass, Tag, smartphones, and codes. For outdoor and indoor use.

Control your space, rain or shine

Discover the ultimate all-weather solution for security and automation. Manage security modes, enable Night mode, control specific groups, and run scenarios with a single keypad. Choose between classic passcodes or contactless control for flexible access. The ultra-slim enclosure fits seamlessly into any space, while large, glove-friendly mechanical buttons make it easy to operate, even in challenging conditions. Thanks to its durable enclosure, the keypad can withstand any operating conditions and physical damage. KeyPad Outdoor Jeweller features generously sized buttons with a homing bar and offers easy navigation for users with visual impairments.
